## Aqua Clean

Stabilised liquid water system sanitiser. Prevents biofilm establishing in the drinking system. Safe to use daily, weekly, or at higher levels at the start of the season. Use before and after any treatments. Safe for equipment and birds.

**Product Usage:** 5-25ml per 100 litres for weekly use when birds are drinking. Flood water system using 3 litres Aqua-clean in 100 litres of water to clean the system when no birds are present.

**10L £64.00**

## Ultimate Acid

Drinking water acidifier which lowers the pH of natural and mains water supplies to a target of 3.5-4pH when used at the recommended usage rate. Creates a hostile environment for pathogenic Bacteria. Contains trace elements in forms of copper and zinc. Positively affects the digestive flora. Ideal to use in rear or in release pens.

**Product Usage:** 100ml per 100 litres of clean drinking water. You can check the target pH by using pH test strips.

**20kg £92.00**

## Interkokask

DEFRA Approved veterinary disinfectant with special formula which includes Chlorocresol, a lipid solvent that breaks through the protective triple outer protein/lipid, chitin layers found in many pathogens and parasites. Suited for game bird challenges. Apply using a sprayer to a dry surface. Highly effective for coccidiosis control. Kills bacteria, viruses (enveloped and non enveloped), fungi, and moulds. Regular use can slow down development of resistant strains of Coccidian.

**10kg £160.00**

## Coccilin Plus

Contains the essential oils allium and carvacrol. Contains water soluble vitamins B2 and B12. Helps maintain the natural balance in the digestive system. This product can be used where coccidiosis challenges are suspected as coccidiosis disrupts the balance in the gut.

## THE GAME FARMERS' ASSOCIATION

### Thank-You

The Game Farmers Association would like to thank all its Members and Trade Members for their loyal support. Without it, we would not have been able to provide the umbrella of protection that the game-farming world relies upon.

In the last few years, you have helped us to:

- Keep members abreast of relevant Covid-19 developments and restrictions.
- Protect the Game Sectors interests throughout Avian Influenza outbreaks.
- Join the fight against Wild Justice's legal challenge to Gamebird Releasing.
- Help fund research into Gamebird Diseases and Welfare Improvements.
- Slash Antibiotic use in the Gamebird sector by over 60%.
- Liaise with DEFRA to minimise the impact of any new requirements for releasing Gamebirds.

And defend you against many other threats you probably didn't even know you faced.

If you are not a member and you want to help us to help you go to [www.gfa.org.uk](http://www.gfa.org.uk) to join.

# ELECTRIC FENCING

## Shrike

Handy low powered energiser designed to hang on the fence line, post or earth stake. Operates from two standard D-Cell batteries (included) or from external 12v battery (not included)

- 3v internal battery input
- 12v external battery option\*
- Unique hanging case
- Charges up to 800m of fence
- On/off switch
- Internal batteries (Included)
- Pulse indicator

\*Lead for external 12v battery - Part: 47BL1

£76.40

## Super Hobby

Very popular single output, mid power 12v energiser. Good battery life, power balance.

- 12v input
- Single spike stand
- On/off switch
- Low battery/pulse indicator

£109.55

## Falcon

High power 12v energiser suitable for a wide range of applications where mains power is not available.

- 12v Input
- On/off switch
- High & low power setting
- Low battery/pulse indicator
- Rigid 4 prong stand

£161.40

## RAPTOR

The Raptor energisers have been designed to offer the highest level of flexibility, quality and simplicity of operation. Raptor will operate from 12v external battery, 230v AC adaptor and from an internal 6v spring top battery. Our innovative three colour rotating LED relays information on the health of your fence system at a glance. All of these features are housed in an ABS case of unrivalled strength. Raptor is available in 0.2, 0.8 and 1.7 stored joule options.

- 6v internal battery input\*
- 12v external battery power input
- 230v mains input (via adaptor)
- Three colour fence performance monitor
- Low battery indicator
- Robust, heavy duty ABS case
- Galvanised steel stand
- Weatherproof switch

\*batteries not included

### Internal 6v battery back up

In addition to 12v external battery and 230v mains adaptor input, Raptor will operate from an internally loaded 6v spring top (PJ996) battery. The standard capacity battery, commonly used in domestic torches, is widely available in most supermarkets so offers an easily accessible emergency power source. The battery can operate as a reserve back up when charging your 12v battery or when unable to check your 12v battery status. When operating from the AC adaptor the 6v internal battery will serve as an emergency battery back up. Our high capacity version (see page 12) will operate as primary power source on the lower power models and give greater longevity in a back up
